2024 School Payments – Years K-2

Dear Parents,

Outlined below is information relating to payments the school is requesting from families.

School Contributions

School contributions are voluntary. They help provide additional educational resources for the benefit of students. It is a one off payment that will help your child with achieving educational outcomes. Please remember that no student or family will suffer any discrimination or embarrassment over failure to make a voluntary contribution. The contributions are \$40.00 per child. If you have three or more children and have any concerns about making this payment or need assistance at this time please contact Mr Robinson

Subscriptions

The subscription fee will cover the online subscriptions for programs that are used within the classroom and at home. The school is able to purchase these subscriptions at a greatly reduced cost.

Mathletics

Mathletics is Australia's most used educational website. It is an online learning resource used by the students within their classrooms but also gives them access to the learning tools at home via the internet. Mathletics covers the full primary curriculum and is used by all students in all grades at Clemton Park PS. Staff have incorporated homework and class based Mathletics tasks within their teaching and learning programs. It is essential that students have access to the program.

Reading Eggs

ABC Reading Eggs is an online reading program that makes learning essential reading skills a fun and motivating experience for students. The program has many features that support literacy teaching and supports students in becoming proficient readers. Teachers are able to place students at different reading levels within the program directly related to their ability.

Sound Waves

Sound Waves is a systematic synthetic phonics and word study program proven to effectively teach spelling and reading skills. The Sound Waves synthetic phonics approach focuses on the process of synthesising (i.e. taking small parts and putting them together to form a whole). It uses a sound-to-letter strategy which acknowledges that sounds can be represented more than one way in written form. This approach focuses first on phonemes – the basic units of sound. It then explores the letters that represent these sounds and how they can be put together to form written words.

Voluntary Contributions	\$40.00 (Per child)
Subscriptions	\$20.00
Total	\$60.00

Child's Name: _____ Class: _____

Cash/Cheque

Online Payment

(3pm CASH or 6pm Online Payment through Sentral parent portal).
