

Education

We, at Bourke High, believe that all students can succeed. Bourke High School is a caring school and we acknowledge that effective learning takes place when students and teachers feel secure and safe, where morale is high, where people are happy and where a high value is placed on working together.

## Report

### Welcome to Education Week.

The theme of Education Week this year is 'Learning Together.' Given the events of this year I don't think there could be a more apt theme. The way everyone involved in Public Education has managed to maintain a focus on student learning throughout some extraordinary times has been a real credit to all involved. The staff at Bourke High School are no exception to this. Every day staff are turning up to work with engaging lessons and a positive attitude to change the lives and brighten the days of our students. And, likewise, our students brighten our lives each and every day.

To mark Education Week for 2020 we are posting a series of videos on our Facebook page throughout the week from each of our subject areas. I've already had a look at Art and English and they're both a great indication of the fantastic work that goes on here every single day.

Further to this, I implore you all to please ignore the Principal video as my teaching skills were a little off that day. A big thankyou to Cameron Rodwell for his video editing and Trudy Rodwell for driving Education Week at Bourke High School.

Enjoy the videos and let's continue to learn together.

Andrew Ryder
