International Yoga Day in After School Care

21 June

Book now

Dear Burnside Community, As a recap of Animal Week, the children had a wonderful time creating Turtle Wool Pop Stick Crafts, designing Bubble Wrap Beehives, sculpting Clay Turtles, drawing Emus with chalk, making Favourite Animal Posters, crafting Dragonflies, building Lego Pets, and folding Easy Origami Animals. These activities inspired creativity and a love for animals among the kids.

We are excited to announce our upcoming STEM Week in Term 2, Week 9, filled with engaging and educational science activities. Here's what we have planned:

- **Magic Milk Experiment:** Children will explore the fascinating world of chemistry by adding dish soap to milk and food coloring, observing the vibrant and mesmerizing patterns that form.
- **Erupting Volcanoes:** Children will create and decorate their own mini-volcanoes, then cause them to erupt using baking soda and vinegar, learning about chemical reactions in the process.
- **Ice Tower:** Children will stack ice cubes and use salt to see how it affects the melting rate, exploring the concepts of freezing and melting points.
- **Oobleck Science Activity:** Children will mix cornstarch and water to create Oobleck, a non-Newtonian fluid, and experiment with its unique properties, shifting between solid and liquid states.
- **River Curve:** Kids will build a model of a river and observe how water flow affects the formation of curves and bends, learning about erosion and sedimentation.

We look forward to another exciting week filled with scientific discovery and hands-on learning!

Arvindh (Coordinator)

Activities coming up

- Finger Knitting
- Shoot out (Soccer)
- One Bounce (Basketball)
- Volcano Lava Slime
- Roll Ups
