Principal's Message

A new school vision has been developed to start the School Excellence Plan for 2025-2028. The SRC worked together to break down the vision into student friendly language. They did an amazing job of collaborating between students from kindergarten to year 6 to create their version (in green) for the students.

Our School Vision

Our school is a vibrant learning community that nurtures excellence, inclusion, and lifelong learning.

Our school is a bright learning place that cares for greatness for everyone and learning that never stops.

We empower students through innovative teaching, meaningful learning experiences, and strong community partnerships.

We strengthen students through new, important and meaningful learning experiences, and strong group partnerships.

By fostering curiosity, resilience, and respect, we inspire students to reach their full potential and contribute positively to society.

By making people curious being able to reach their goal with respect, we inspire students to reach their 100% and take part happily in community activities.
